Scope and Content Note

The Evelyn Philips Anti-Communist Ephemera Collection (1.2 l.ft.; Box 1-3)

The material consists of books, magazines, newsletters, newspaper articles, magazine articles, notes, pamphlets, broadsheets and other ephemera. The majority of the books have been incorporated within our book collection in the research room. Mrs. Philips had an automatic standing order with the Conservative Book Club and also has early examples of publications from Regnery and Devon Adair and other conservative publishers. See our book catalog for these items or browse through the research room shelves. The remainder of the material has been incorporated within this collection of ephemera. The material does not contain much direct Reagan material such as any 1966 or 1970 gubernatorial campaign handouts or Reagan written material.

This material was not put into any series. The material is organized as follows: first are authored pamphlets/articles filed in alphabetical order by author/title. Second are items representing conservative advocacy groups filed in alphabetical order by the name of the group. These begin with "The 1976 Committee" in Box 2 and

continue until “Young Americans for Freedom” in Box 3. Third are magazine articles, photocopies of newspaper articles from 1963-1995, and government reprints and publications.

This material is located in our Research Room - check with the Research Room attendant for access to this material.
