28 OCT 1986

MEMORANDUM FOR THE ASSISTANT TO THE *John* PRESIDENT FOR NATIONAL SECURITY AFFAIRS

SUBJECT: Presidential Report to Congress on NATO Chemical Deterrent Posture

The 1986 DoD Authorization Act (P.L. 99-145, Sec. 1411) required that the President report to Congress by 1 October 1986 on the results of consultations among NATO member nations concerning the organization's chemical deterrent posture. Your staff coordinated an extension of the due date. Attached is the required report with draft transmittal letter. I have also provided the Authorization language for your information.

The information contained in the report has been obtained from SHAPE. The NATO consultation process has been going on for many years. Progress has been made in chemical warfare defense. As ADM Crowe proposed to the NATO Military Committee, it is now time to evaluate what we have done and what remains to be done.

Recommend you forward the proposed letter for signature.

BOB PEARSON:

For your information, attached are copies of the final letters to the Speaker and President of the Senate on the NATO chemical deterrent report.

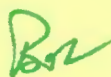

We've made certain small changes in the letters with the agreement of Bob Manley. Bob has no problem with the release of a White House press release (proposed copy attached) at the time of transmittal. Especially for purposes of the press release, which of course does not bear the classification notice on top and bottom, we've simply inserted the word "classified" in the second paragraph of the letter.

We await your approval of the release of a press release once the package is signed.
