MEMORANDUM

NATIONAL SECURITY COUNCIL

March 21, 1983

TO: Bailey  
Blair  
Fortier  
Guhin  
McMinn  
Martin  
Robinson  
Sigur  
Tyson

(1) Secretariat

FROM: Henry Nau *HN (per)*

Attached at Tab A is the U.S. Strategy Paper for the Williamsburg Summit which the President approved before our preparatory meeting in San Diego last week. This paper was drafted by the Sherpas and includes all of the helpful points on East-West issues, which Blair, Robinson, Martin and I developed beforehand. This paper was the basis of our presentations at San Diego. The talking points for that presentation were distributed to each of you on March 10 and the comments I received back were incorporated in the final talking points which Wallis used (see Tab B).

At the end of our meeting in San Diego, we tabled notes or outlines for the three main agenda items (Tab C). These notes summarized our presentations, supplemented by helpful points made by other delegations in the course of our discussions at San Diego. We asked for written comments from the other delegations within ten days. We will then revise these notes as the basis for our continuing preparatory discussions at the next Sherpa meeting.

I have called a meeting at 4:00 p.m. this afternoon, Monday, March 21. I am sorry for the short notice, but I understand that some of you are leaving town later today and tomorrow.

For your review/comment, a first cut at a strategy paper for the Williamsburg Summit. The idea is to give it to Henry Han on his return to see if any of it would be useful in focussing summit preps. Please give me comments by Friday noon.

THIS FORM MARKS THE FILE LOCATION OF ITEM NUMBER 12-14 LISTED ON THE  
WITHDRAWAL SHEET AT THE FRONT OF THIS FOLDER.

WORKING OUTLINE ON TRADE, DEBT AND FINANCE: THE CRITICAL  
ROLE OF DEVELOPING COUNTRIES IN THE WORLD ECONOMY

I. Objectives

- A. Promote greater openness of trade and financial systems,
- B. Assure ability of financial system to manage current debt problems,
- C. Provide better coordination of trade and financial policies, and
- D. Improve economic integration between developed and developing countries.

II. Identification of Linkages

- A. Between openness of markets and solution of debt problems, including linkage between financing and trade,
- B. Between availability of financing and success of economic adjustment in LDC's, including ability to maintain essential imports, and
- C. Between growth in developed countries and growth in developing countries.

III. Recommendations for Consideration at Summit

A. Trade

1. Operation of Current System

Avoid new protectionist action; dismantle existing barriers over time; reaffirm support for open trade system; determination to resolve current disputes.

2. New Initiatives: Reinforce commitments to GATT Work Program, especially:
- a) North-South round,
  - b) High technology (follow-up to Report on Technology, Employment and Growth commissioned at Versailles),
  - c) Trade in services,
  - d) Ask Trade Ministers to meet and provide guidance for Summit Heads on new ways to resist protectionism (besides another pledge) and to settle current multilateral issues (e.g., safeguards).

B. Debt

Reject major reform or "master plan"; confirm agreement on strategy. Proposed elements:

1. Effective adjustment in borrowing countries; importance of avoiding new trade barriers,
2. Availability of financing from official resources (IMF, MDB's; bilateral aid programs),
3. Availability of short-term transitional financing from official creditors (governments and central banks),
4. Role of commercial banks; export credit programs, and
5. Sustained, non-inflationary recovery in developed countries.

C. Coordination

1. More frequent meetings of Trade Ministers of Summit countries (i.e., quadrilateral); consider expanding this group on occasion to include some LDC Trade Ministers; alternatively, more use of GATT CG-18,
2. Ad hoc meetings of trade and finance officials at all levels; consider expanding occasionally to include representatives from LDC's,
3. More frequent GATT Ministerials than in past; propose next meeting for 1985.

WORKING  
SUGGESTED OUTLINE FOR STRENGTHENING THE  
MULTILATERAL SURVEILLANCE PROCESS

- I. Reaffirmation of objective: achieving sustainable, non-inflationary growth and job creation.
- II. Discussion of medium-term focus: focus on nearer-term actions leading to convergence of economic conditions in medium term.
- III. Policy areas
  - A. Domestic
    1. Monetary policy -- stable monetary aggregate growth and implications for interest rates.
    2. Discipline over government expenditures, especially transfer payments.
    3. Achieving greater reliance on letting market signals guide economic activity and investment into efficient channels.
  - B. International
    1. Measures for increasing flexibility and openness of our economies -- trade and structural adjustment policies.
    2. Influence of energy developments.
    3. Financial and investment policies.
    4. Exchange rate policy.
- IV. Assessing progress on convergence of economic results.
  - A. Reach broad understanding on government plans and report back on progress.
  - B. Suggested criteria:
    1. Inflation rates, interest rates, exchange rate movements.

2. Growth in monetary aggregates both absolutely and relative to targets.
3. Relative size and direction of change in government budget, expenditures and deficit.
4. Unemployment rate, job creation, recent and prospective real GNP growth rates, productivity growth.
5. Balance of payments trends.
6. Movement toward or away from greater flexibility and openness of the economy (domestic regulatory changes, trade and capital restrictions, etc.).

WORKING OUTLINE ON EAST-WEST  
ECONOMIC RELATIONS

(NOTE: This outline should be developed in May after countries have reviewed what has been accomplished in the various studies/work programs currently underway. In general, the outline would address the following points.)

I. Principles governing our approach to East-West economic relations.

(Reaffirm principles of the Summary of Conclusions Paper.)

II. Review of Agreements previously reached.

(Recapitulate agreements resulting from the COCOM, IEA, and OECD meetings scheduled for April and early May.)

III. Recommendations for further work.

(Assessed as a function of the review in II, determine what steps Heads of State/Government might recommend to various institutions or their own governments to follow-up on what has been accomplished.)
