## MEMORANDUM TO SPONSORS

This omnibus memorandum presents (1) a record of the grantee's program in the Washington, D.C. area; (2) general comments addressed to all sponsors; and (3) specific recommendations to individual sponsors. The material is presented in this form so that each local sponsor may have a clear idea of how his part of the program fits into the whole, and so that unnecessary duplication may be avoided. The recommendations reflect the best thinking of the grantee and the program officer as it emerged in consultations between them. However, the grantee has been informed that all of the printed suggestions may not prove feasible; and he has been invited to advise sponsors of any changes he may wish to make as the program progresses. It goes without saying that nothing in this memorandum is intended to inhibit sponsors from exercising their initiative or using their knowledge of local resources to further the objectives of the program.

\* Denotes specific requests by the grantee.

MEMORANDUM FOR RICHARD V. ALLEN

FROM: ROGER FONTAINE *RF*

SUBJECT: Meeting With Gilbert Chauney and Domingo de Sieno of the Peruvian Embassy

Messrs. Chauney and de Sieno dropped by at my request to explain Peru's position on its border dispute in Ecuador. I did so because I have already gotten the Ecuadorean position from Sixto Duran on his recent visit from Quito.

The Peruvians as expected presented their views insisting the U.S. role is to remain a guarantor of the Protocol, and that by definition rules out any support -- active or passive -- of Ecuador questioning the legitimacy of the Protocol.

I made no observations on U.S. policy, but thanked them for the opportunity to get a firsthand look at Peru's position. They left with me appropriate documents for the file.

Dear Mr. President:

I am extremely pleased that you have invited a Presidential Agricultural Task Force to your country, and that Clayton Yeutter, as head of the Task Force to Peru, is able to deliver this letter to you firsthand. As you know, I initiated these task forces after my discussions at Cancun which drew attention to the need for improved domestic policies and programs to stimulate agricultural production.

The scope of work developed jointly by United States' and Peruvian professionals emphasizes clearly the need to develop strong private sector and technology responses to urgent food needs. Mr. Yeutter has extensive private sector experience at the highest levels. He complements that experience with considerable background in both the public and university sectors and is, therefore, uniquely qualified to lead an effort which will require the closest coordination and inter-action among all three sectors. The remaining members of the team also possess the highest possible credentials in their respective fields of expertise, including the development of agricultural research policy and strategy.

I am particularly pleased that Peru, having returned to democratic government in June 1980, will receive the first task force being sent from the United States following the discussions at Cancun. I look forward to the results of this joint effort, and wish you and your country every success in the future.

With warm personal regards.

Sincerely,

Your Excellency :

Aware of the keen interest shown during the recent meeting at Cancun in relation to agricultural and nutritional problems affecting the Third World, as the main task in the North-South Dialogue, here in Peru we have been favourably impressed by your decided attitude to intensify the search for solutions in benefit of Humanity.

The frequent contacts between United States and Peru have adequately prepared the field and allowed to start a new phase of activities for research and development in the agricultural sphere.

The preparatory mission of your Government's officials has allowed us to set the ground-work for that task that could be definitely established with the final mission of technicians and officials of Your Excellency's Government who would contact immediately our own in order to arrive at concrete and definite agreements.

I have recently had the pleasant occasion of meeting and exchanging opinions with two missions of Congressmen of the United States. In the first one came the Senators Howard H. Baker, Paul Laxalt and Ernest E. Hollings, together with other distinguished members; the second was headed by the House Representative C. Melvin Price, accompanied by other distinguished legislators. The conversation with such high-ranking officials has allowed me to clarify important points, and I expressed to them my decision to write to Your Excellency in the hope that our mutual expectation should be fulfilled.

I am pleased to keep in contact so that our two Governments, in line with our purpose of opening up new frontiers for the nutritional development of the Third World, should dedicate their efforts in research and interchange of experiences in a field in which the United States has excelled both in creativeness and scientific knowledge, as well as in human solidarity. As for Peru, as Your Excellency is well aware, has all imaginable climates and the most diverse ecologic conditions, besides, vital agricultural products that spread in the whole world originate in her soil, is prepared to offer not only appropriate zones for the projected study but also to participate actively in the research.

Trusting that the above high purpose be fulfilled as soon as possible, I renew to Your Excellency, the assurances of my highest consideration and personal esteem.

MEMORANDUM FOR THE HONORABLE WILLIAM P. CLARK  
National Security Advisor  
to the President  
The White House

SUBJECT: Cancun Task Force - Peru

In late October 1981, at the Cancun Summit, President Reagan offered to send Agricultural Task Forces to any less developed country that requested our assistance in solving its food production problems. On February 5, the President announced that the first Presidential Agricultural Task Force would be sent to Peru, headed by Clayton Yeutter. The formal request for such a task force came in the form of a letter from Peruvian President Belaunde to President Reagan (copy with translation attached).

It has been suggested subsequently that Clayton Yeutter personally deliver a response from President Reagan to President Belaunde. This suggestion was endorsed enthusiastically by Yeutter. I believe it would raise substantially the visibility of this initiative, as well as ensure that the first task force effort gets the appropriate attention and response at the highest level in Peru. A proposed letter from President Reagan is attached.

Excelentísimo señor Presidente :

Informado del vivo interés expresado en la reciente Reunión de Cancún por los problemas agrícolas y nutricionales del Tercer Mundo como tarea primordial del Diálogo Norte-Sur, nos ha impresionado muy favorablemente en el Perú la decidida actitud de Vuestra Excelencia para intensificar la búsqueda de soluciones que beneficien a la humanidad.

Los contactos frecuentes entre los Estados Unidos y el Perú han preparado adecuadamente el terreno para entrar a una nueva fase de actividades en el campo de la investigación y el desarrollo agropecuarios.

La misión preparatoria cumplida por funcionarios del Gobierno de Vuestra Excelencia nos ha permitido sentar las bases para ese trabajo que podría precisarse con la visita de una misión final de técnicos y funcionarios del Gobierno de Vuestra Excelencia que entrarían en contacto con el nuestro para llegar a acuerdos de colaboración concretos y definitivos.

He tenido la oportunidad muy grata de recibir y cambiar ideas con dos recientes misiones del Congreso de los Estados Unidos. La primera integrada por los señores Senadores Howard H. Baker, Paul Laxalt y Ernest E. Hollings, con la participación de otros distinguidos miembros; la segunda presidida por el señor Representante al Congreso C. Melvin Price, secundado por otros eminentes legisladores. El diálogo con visitantes de tanta significación me ha permitido intercambiar puntos de vista, anunciándoles mi decisión de dirigirme a Vuestra Excelencia con la esperanza de que nuestras mutuas expectativas puedan materializarse convenientemente.

Me complace la posibilidad de mantener un contacto para que nuestros gobiernos, concordantes en nuestros propósitos de abrir nuevos horizontes al desarrollo nutricional del Tercer Mundo, se aboquen a la tarea de investigación y a la transferencia de experiencias en ese campo en que los Estados Unidos se han distinguido tanto por su capacidad creadora y su competencia científica, así como por su propósito de solidaridad humana. En cuanto al Perú que, como Vuestra Excelencia bien sabe, posee todos los climas y las más diversas condiciones ecológicas siendo, además, originario de vitales productos agrícolas difundidos en todo el universo, está dispuesto a ofrecer no solamente regiones apropiadas para el estudio propuesto sino a participar intensamente en su realización.

Esperando que estos altos propósitos se lleven adelante a la brevedad posible, le reitero, Excelentísimo señor Presidente, las seguridades de mi más alta consideración y estima.
