TAKE PRIDE IN AMERICA CEREMONY

Date: July 21, 1987
Location: Rose Garden
Time: 1:30 p.m. (15 Minutes)
From: Nancy J. Risque

Nancy

I. PURPOSE

To promote grassroots support for our public lands and historic sites and to recognize the 38 award winners who have responded in dedicated and innovative ways to the Take Pride in America Campaign.

II. BACKGROUND

Over one-third of the United States (approximately 700 million acres) is managed by the Federal government as public land. Millions of acres are managed for the public benefit by states and localities. Although most citizens treat public lands with care and respect, many lands and resources have suffered from misuse and abuse such as litter, vandalism and theft.

In the written text of your 1986 message to Congress, you launched the Take Pride in America Campaign to increase awareness of the need for wise use of the nation's natural and cultural resources. Since then, 42 states and two U.S. territories have joined numerous private sector organizations and nine federal agencies in this campaign.

A key component of the Take Pride in America Campaign is a national awards program. The awards recognize individuals and groups that conduct outstanding stewardship action or awareness efforts on behalf of federal, state, local and/or Indian lands and resources. Secretary Hodel will present the 38 awards at the National Arboretum prior to the White House ceremony.

The Take Pride in America celebrity spokesmen are Louis Gossett, Jr., Charles Bronson, and Clint Eastwood. Mr. Gossett and Mr. Eastwood will attend the Rose Garden ceremony.

VISIT TO THE NATIONAL INSTITUTES OF HEALTH

Date: July 23, 1987
Location: National Institutes of Health
Bethesda, Maryland
Time: 12:50 p.m.
(1 hour and 55 minutes, portal to portal)
From: Nancy J. Risque *Nancy*

I. Purpose

To focus attention on your Commission on the Human Immunodeficiency Virus Epidemic and on the Federal Government's continuing commitment to progress against AIDS and AIDS-related diseases.

II. Background

You will meet the members of the Commission, visit a laboratory involved in research and development of AIDS-treatment drugs, visit with children in an experimental treatment program, and be briefed with the Commission members on the current progress in the battle against AIDS and AIDS-related diseases.

Commission: On June 24, 1987, you signed an executive order creating the Presidential Commission on the Human Immunodeficiency Virus Epidemic. The Commission is charged with recommending measures that government at all levels should take to protect the public from infection, assist in finding a cure for AIDS, and care for those who already have AIDS.

Broder Laboratory: Dr. Samuel Broder, Associate Director for Clinical Oncology at the National Cancer Institute, heads the laboratory where the first work was done on the use of AZT as a treatment for AIDS. At this time there is no drug that can eradicate the virus in someone who is already infected. However, Dr. Broder's group evaluates drugs that may combat the disease and has had some success with drugs that limit the growth of the number of viruses in people who are already infected. AZT, or Retrovir, which is its trade name, is one of these drugs and is currently being prescribed for nearly half of the victims of AIDS.

Pediatric Ward: The research that led to Retrovir being prescribed for many AIDS patients proved the drug is effective for some adults. Now Dr. Philip Pizzo is working to determine whether Retrovir can combat HIV infection in children and is currently treating 14 children with the drug in an experimental treatment program. They come to NIH biweekly at first, and then monthly once the drug's effect has plateaued. While adults take Retrovir in pill form, the children receive it in liquid form, administered continuously through a semi-permanent catheter. Dr. Pizzo will introduce you to some of these children and their parents.

Briefing: Dr. Anthony S. Fauci, Director of the National Institute of Allergy and Infectious Diseases, will brief you and the members of your Commission on the current state of the science in the fight against AIDS and the current challenges facing doctors and researchers. Dr. Fauci has previously briefed you and the Domestic Policy Council on AIDS.

III. Participants

Secretary Bowen; Dr. James B. Wyngaarden, Director, National Institutes of Health; Dr. Eugene Mayberry, Chairman of the Commission; Dr. Samuel Broder; Dr. Philip Pizzo; Members of the Commission; and approximately 110 invited guests from the National Institutes of Health and the Department of Health and Human Services.

NATIONAL DRUG POLICY BOARD (NDPB) MEETING

DATE: July 23, 1987
LOCATION: Cabinet Room
TIME: 3:00pm (1 hour)

FROM: Edwin Meese III, Chairman *EM*
National Drug Policy Board

I. PURPOSE

To review progress of Federal drug programs and to discuss future issues.

II. BACKGROUND

On March 27, 1987, you signed Executive Order 12590 establishing the NDPB. The Board combines the law enforcement responsibilities of the National Drug Enforcement Policy Board and the demand reduction role of the Domestic Policy Council.

You last met with the National Drug Enforcement Policy Board in April 1986. This meeting will provide an overview briefing of the Federal progress on reducing both the supply and demand of drugs.

In addition, there will be a discussion on future issues. Dr. Ian Macdonald will lead a discussion on the need to focus responsibilities for drug use on the individual user. Also, the issue of certifying drug-producing nations for continued foreign assistance will be discussed.

III. SEQUENCE OF EVENTS

The President will welcome (Tab A) the Policy Board and then turn to Attorney General Meese to lead the meeting (Tab B).
