PRESIDENTIAL REMARKS: DROPHY BRIEFING FOR CONCERNED WOMEN
FOR AMERICA
THURSDAY, SEPTEMBER 24, 1987

Thank you. Thank you all very much and welcome to the Old Executive Office Building. It's wonderful to have you in Washington. It makes me feel as if the reinforcements have just arrived.

First, I want to congratulate you on your fourth annual convention -- in just 4 years you've become the largest politically active women's organization in the Nation. A lot of the credit, of course, has to go to one woman. She's one of the powerhouses on the political scene today. One of the reasons that the "grassroots" are more and more a conservative province. Because of her, the great majority of women once again have a voice in the issues of the day -- they can no longer be ignored by the media or by their elected Representatives.

Beverly LaHaye is changing the face of American politics -- and she deserves our thanks and our congratulations.

Thinking of this convention, and the agenda ahead of us these next months, I was put in mind of one of my favorite Churchill anecdotes. It was near the close of the Second World War. Churchill was visited by a delegation from the temperance league and chastised by one woman who said, "Mr. Prime Minister, I've heard that if all the whiskey you have drunk since the war began were poured into this room, it would come all the way up to your waist." Churchill looked dolefully down at the floor, then

at his waist, and then up to the ceiling. And then he said, "Ah, yes, madam, So much accomplished, and so very much more left to do."

Well, we, too, have so very much more left to do. And with the help of the Concerned Women for America, we're going to get it accomplished. One of the first things we have to do is -- well, you might say that we have to make sure that justice is done -- that Judge Bork is confirmed by the Senate as our next Supreme Court Justice.

The Wall Street Journal called Judge Bork, and I quote, "...the most qualified American alive to serve on the Supreme Court." His testimony which was completed last Saturday demonstrated that to the Nation. The American people saw not only a brilliant legal mind at work, but also a man who was prudent and fair. A man of careful consideration and deep learning. And they saw that all the wild charges that have been flying around say a lot more about the people who are making them than about Robert Bork.

Before the hearings began, there was a lot of talk to the effect that Judge Bork was a political ideologue. On TV's across the Nation, those who tuned into the hearings saw something very different indeed. They saw a Judge who impressively argued against ideology -- that is, against the current fashion in some legal circles that says a judge should bend the law to suit his own political agenda. Judge Bork clearly spelled out his philosophy: that a judge should keep his own views from interfering with an interpretation of the laws and the

Constitution according to the intentions of those who enacted them, consistent with precedent. In other words, a judge should interpret the laws, not make them. I think you'll agree, we need more judges like that.

Before the hearings, it was also argued that Judge Bork was "outside the mainstream." But last week, in an article on the Op-Ed page of the Washington Post, President Carter's White House Counsel, Lloyd Cutler, threw that canard out the window. Mr. Cutler wrote of Judge Bork, and I quote, "...his views were and are widely shared by justices and academics in the moderate center." It's clear now that the charges that Robert Bork is too ideological are themselves ideologically inspired, and that the criticism of him as "outside the mainstream" can only be held by those who are themselves so far outside the mainstream that they've long ago lost sight of that moderate center.

Now, I don't usually make predictions, but in this case I feel confident that reason will prevail over politics. So I'm going to make this prediction: not only that Judge Bork will be confirmed, but that he will go down in history as one of the finest Supreme Court Justices our Nation has ever known.

The next item on our agenda -- and nothing we've done in the last 6-1/2 years has been so important -- is the survival of freedom in Central America. In the last few years, your organization has been vital in that cause -- but this is the crucial moment. Now is the time we must redouble our efforts to make sure that the hope for freedom in Nicaragua is not betrayed once again.

In the latest issue of Public Opinion magazine they have printed the results of an extensive polling of American attitudes toward Central America. The numbers make it very clear: the message is getting across. The American public recognizes the great danger posed by an aggressive, Communist government in Nicaragua and, by a large majority, favors aid to the Nicaraguan freedom fighters battling to liberate their nation from Communist tyranny.

Of those who had an opinion, a huge majority described Central America as, "very important to the defense interests of the United States" and agreed that the situation in Nicaragua is a threat to the security of the United States. Huge majorities believe there is a danger of Nicaragua becoming another Cuba -- an aggressive, Soviet outpost exporting revolution to its neighboring countries.

And on the subject of aid to the freedom fighters, the numbers were impressive -- 58 percent for, only 29 percent opposed.

In the months ahead, as the Central American peace process undergoes its inevitable complications, it will be ever more vital to keep the central issue before the American people -- democracy in Nicaragua. We can accept nothing less. Only with freedom and democracy in Nicaragua will there be true peace and a chance for real, lasting economic development in Central America. Anything short of true democracy in Nicaragua will at best bring only a false peace to Central America. The wound will fester -- and the infection will break out once again.

There is only one path to peace: free fair elections open to all; a free press; allow Radio Catolio, and the other radio stations, to broadcast once again; send the Soviets and Cubans home; open up the jails and let the political prisoners free; allow freedom of worship, labor unions, a free economy; dissolve the Orwellian "neighborhood watch committees;" give the people of Nicaragua back their basic human rights.

Anyone who demands anything less of the Sandinistas -- anyone who does not insist on true democracy in Nicaragua -- is not serving the cause of peace.

Well, I have talked long enough, but I would like to leave you with one thought. In this bicentennial year, I keep being drawn back to George Washington's first inaugural address. "...there is no truth more firmly established," he said, "than that there exists in the economy and course of nature an indissoluble union between virtue and happiness..." America will prosper, America will succeed, he was saying, only so long as she is good, for the "propitious smiles of Heaven can never be expected on a nation that disregards the eternal rules of order and right which Heaven itself has ordained."

He reminded his countrymen that there is something more at stake here than our own advantage. That something is the "preservation of the sacred fire of liberty" which he said was "deeply, finally staked on the experiment entrusted to the hands of the American people."

Those words ring just as urgently true today -- perhaps even more so. And it is individuals and groups like yours who have

responded to that sense of urgency, who have taken up Washington's call, who will keep America good -- and therefore prospering. Working from the grassroots through all the branches of Government, it is people like you who are keeping that sacred fire of liberty alive.

Thank you all and God bless you.

Dissolve the Orwellian "neighborhood watch committees." Give the people of Nicaragua back their basic human rights. Anyone who demands anything less of the Sandinistas -- anyone who does not insist on true democracy in Nicaragua -- is not serving the cause of peace.

Well, I have talked long enough, but I would like to leave you with one thought. In this bicentennial year, I keep being drawn back to George Washington's first inaugural address. "...there is no truth more firmly established," he said, " than that there exists in the economy and course of nature an indissoluble union between virtue and happiness..." America will prosper, America will succeed, he was saying, only so long as she is good, for the "propitious smiles of Heaven can never be expected on a nation that disregards the eternal rules of order and right which Heaven itself has ordained."

He reminded his countrymen that there is something more at stake here than our own advantage. That something is the "preservation of the sacred fire of liberty" which he said was "deeply, finally staked on the experiment entrusted to the hands of the American people."

Those words ring just as urgently true today -- perhaps even more so. And it is individuals and groups like yours who have

responded to that sense of urgency, who have taken up Washington's call, who will keep America good -- and therefore prospering. Working from the grassroots through all the branches of Government, it is people like you who are keeping that sacred fire of liberty alive.

Thank you all and God bless you.

PRESIDENTIAL REMARKS: DROPHY BRIEFING FOR CONCERNED WOMEN
FOR AMERICA
THURSDAY, SEPTEMBER 24, 1987

Thank you. Thank you all very much and welcome to the Old Executive Office Building. It's wonderful to have you in Washington. It makes me feel as if the reinforcements have just arrived.

First, I want to congratulate you on your fourth annual convention -- in just 4 years you've become the largest politically active women's organization in the Nation. A lot of the credit, of course, has to go to one woman. She's one of the powerhouses on the political scene today. One of the reasons that the "grassroots" are more and more a conservative province. Because of her, the great majority of women once again have a voice in the issues of the day -- they can no longer be ignored by the media or by their elected Representatives.

Beverly Lahaye is changing the face of American politics -- and she deserves our thanks and our congratulations.

Thinking of this convention, and the agenda ahead of us these next months, I was put in mind of one of my favorite Churchill anecdotes. It was near the close of the Second World War. Churchill was visited by a delegation from the temperance league and chastised by one woman who said, "Mr. Prime Minister, I've heard that if all the whiskey you have drunk since the war began were poured into this room, it would come all the way up to your waist." Churchill looked dolefully down at the floor, then at his waist, and then up to the ceiling. And then he said, "Ah,

yes, madam, So much accomplished, and so very much more left to do."

Well, we, too, have so very much more left to do. And with the help of the Concerned Women for America, we're going to get it accomplished. One of the first things we have to do is -- well, you might say that we have to make sure that justice is done -- that Judge Bork is confirmed by the Senate as our next Supreme Court Justice.

The Wall Street Journal called Judge Bork, and I quote, "...the most qualified American alive to serve on the Supreme Court." The hearings that were completed last Saturday demonstrated that to the Nation.

The American people saw not only a brilliant legal mind at work, but also a man who was prudent and fair. A man of careful consideration and deep learning. And they saw that all these wild charges ^{that have been} flying around say ^{abt} more about the people who are making them *& than about Robert Bork*

Before the hearings began, there was a lot of talk to the effect that Judge Bork was a political ideologue. On TV's across the Nation, those who tuned into the hearings saw something very different indeed. They saw a Judge who impressively argued against *(ideology -- that is)* against the current fashion in some legal circles that says a judge should bend the law to suit his own political agenda. Judge Bork clearly spelled out his philosophy *!* that a judge should keep his own views from interfering with an interpretation of the laws and the Constitution according to the intentions of those who enacted them, consistent with precedent. In other

words, a judge should interpret the laws, not make them. I think you'll agree, we need more judges like that.

Before the hearings, it was also argued that Judge Bork was "outside the mainstream." But last week, in an article on the Op-Ed page of the Washington Post, ^{Lloy} President Carter's White House Counsel, Lloyd Cutler, threw that canard out the window. Mr. Cutler wrote of Judge Bork, and I quote, "...his views were and are widely shared by justices and academics in the moderate center."

It's clear now that the charges that Robert Bork is too ideological are themselves ideologically inspired, and that the criticism of him as "outside the mainstream" can only be held by those who are themselves ^{so far} outside the mainstream, ^{that} they've long ago lost sight of that moderate center.

Now, I don't usually make predictions, but in this case I feel confident that reason will prevail over politics. So I'm going to make this prediction: not only that Judge Bork will be confirmed, but that he will go down in history as one of the finest Supreme Court Justices our Nation has ever known.

The next item on our agenda -- and nothing we've done in the last 6-1/2 years has been so important -- is the survival of freedom in Central America. In the last few years, your organization has been vital in that cause -- but this is the crucial moment. Now is the time we must redouble our efforts to make sure that the hope for freedom in Nicaragua is not betrayed once again.

In the latest issue of Public Opinion Magazine they have printed the results of an extensive polling of American attitudes

toward Central America, and support of the Nicaraguan freedom fighters. The numbers make it very clear: the message is getting across. The American public recognizes the great danger posed by an aggressive, Communist government in Nicaragua, and by a large majority, favors aid to the Nicaraguan freedom fighters battling to liberate their Nation from Communist tyranny.

Of those who had an opinion, a huge majority described Central America as "very important to the defense interests of the United States," and agreed that the situation in Nicaragua is a threat to the security of the United States. Huge majorities believe there is a danger of Nicaragua becoming another Cuba -- an aggressive, Soviet outpost exporting revolution to its neighboring countries.

And on the subject of aid to the freedom fighters, the numbers were impressive -- 58 percent for, only 29 percent opposed.

In the months ahead, as the Central American peace process undergoes its inevitable complications, it will be ever more vital to keep the central issue before the American people -- democracy in Nicaragua. ^{We can accept} Nothing less. Only with freedom and democracy in Nicaragua will there be true peace and a chance for real, lasting economic development in Central America.

Anything short of true democracy in Nicaragua will at best bring only a false peace to Central America. The wound will fester -- and the infection will break out once again. ^{There is only one path to peace} Free fair elections open to all. A free press. Allow Radio Catholica, and the other radio stations, to broadcast once again.

~~Send the Soviets~~ ^{Send the Cubans} home. Open up the jails and let the political prisoners free. Allow freedom of worship, labor unions, a free economy. Dissolve the Orwellian "neighborhood watch committees." Give the people of Nicaragua back their basic human rights. Anyone who demands anything less of the Sandinistas ^{-- anyone who does not insist on true democracy in Nicaragua} is not serving the cause of peace.

Well, I have talked long enough, but I would like to leave you with one thought. In this bicentennial year, I keep being drawn back to George Washington's first inaugural address. "...there is no truth more firmly established," he said, " than that there exists in the economy and course of nature an indissoluble union between virtue and happiness..." Mr. President:

Concerned Women for America is the largest politically active women's organization in the United States, with more than half a million members. We have strongly supported your Strategic Defense Initiative, your value for human life beginning with the unborn, and your program for building stronger families in this nation. Our organization is supporting your pro-life bill.

*See meeting
9/24-9/27*

For the last three years your schedule has not enabled you to accept invitations to our national convention. As we approach our fourth national convention September 24 - 27, 1987, I again extend our invitation. Attending will be an estimated 2,000 women from all over America.

With all the controversy surrounding the White House, I consider our fourth national convention a strategic opportunity to personally share with our ladies, enabling them to carry across our country your message for America. They need to hear from you Mr. President, since they have worked diligently for your causes.

Honoring the bicentennial of the Constitution, the convention is titled "We the People . . ." We will meet at the Crystal Gateway Marriott Hotel in Crystal City, Virginia. Included among the workshops and general sessions focusing on issues of great concern will be nationally known speakers prepared to educate, motivate and inspire our members.

Our convention begins at 7 p.m. Thursday, September 24, and ends at 11 a.m. Sunday, September 27. We would welcome you to speak at any of our sessions according to your choice and convenience of schedule. Our program can be rearranged so you can choose a morning, afternoon or evening session.
