RE: Treasury's proposed "Tax Reform for Fairness, Simplicity and Economic Growth" to begin January 1, 1986

Dear President Reagan:

The Domestic Oil and Gas Exploration Industry in this country will be seriously impacted in present and future operations if the above Treasury's proposals remain unchallenged.

The Treasury is recommending the following major tax allowances be eliminated for all Royalty owners, Working Interest investors, Independent Oil Producers, and Major Oil Companies:

- 1. Depletion Allowances on existing and future production
- 2. Intangible and Tangible cost deductions
- 3. Investment Tax Credit on Tangible costs
- 4. Dry hole costs only expensed over several years if acreage not abandoned by producer.
- 5. No deduction of Secondary and Tertiary Recovery costs

The elimination of these necessary tax considerations would deal a devastating blow to all people in the oil and gas exploration and production business creating a heavy increased tax burden.

Also--if these Tax proposals become law, it will definitely contribute to the deficit increasing due to the necessity of this country's need for increased costly imported oil.

President Reagan, we need to ask you to <u>publicly reject</u> the Treasury's proposals as outlined above to avoid the catastrophic effect on the Domestic Oil and Gas Exploration Industry. Further, State Senators and key Congressmen also need to be aware of the effects of this heavy increased tax burden for all tax payers.

We ask your support to retain these tax allowances rather than eliminate them.

Sincerely,

CC: Edwin Meese, III
James A. Baker, III
Robert C. McFarlane
Senator Alan Dixon

- 5. No deduction of Secondary and Tertiary Recovery costs

The elimination of these necessary tax considerations would deal a devastating blow to all people in the oil and gas exploration and production business creating a heavy increased tax burden.

Also--if these Tax proposals become law, it will definitely contribute to the deficit increasing due to the necessity of this country's need for increased costly imported oil.

President Reagan, we need to ask you to <u>publicly reject</u> the Treasury's proposals as outlined above to avoid the catastrophic effect on the Domestic Oil and Gas Exploration Industry. Further, State Senators and key Congressmen also need to be aware of the effects of this heavy increased tax burden for all tax payers.

We ask your support to retain these tax allowances rather than eliminate them.

RE: Treasury's proposed "Tax Reform for Fairness, Simplicity and Economic Growth" to begin January 1, 1986

Dear President Reagan:

The Domestic Oil and Gas Exploration Industry in this country will be seriously impacted in present and future operations if the above Treasury's proposals remain unchallenged.

The Treasury is recommending the following major tax allowances be eliminated for all Royalty owners, Working Interest investors, Independent Oil Producers, and Major Oil Companies:

- 1. Depletion Allowances on existing and future production
- 2. Intangible and Tangible cost deductions
- 3. Investment Tax Credit on Tangible costs
- 4. Dry hole costs only expensed over several years if acreage not abandoned by producer.
- 5. No deduction of Secondary and Tertiary Recovery costs

The elimination of these necessary tax considerations would deal a devastating blow to all people in the oil and gas exploration and production business creating a heavy increased tax burden.

Also--if these Tax proposals become law, it will definitely contribute to the deficit increasing due to the necessity of this country's need for increased costly imported oil.

- 4. Dry hole costs only expensed over several years if acreage not abandoned by producer.
- 5. No deduction of Secondary and Tertiary Recovery costs

The elimination of these necessary tax considerations would deal a devastating blow to all people in the oil and gas exploration and production business creating a heavy increased tax burden.

Also--if these Tax proposals become law, it will definitely contribute to the deficit increasing due to the necessity of this country's need for increased costly imported oil.

President Reagan, we need to ask you to <u>publicly reject</u> the Treasury's proposals as outlined above to avoid the catastrophic effect on the Domestic Oil and Gas Exploration Industry. Further, State Senators and key Congressmen also need to be aware of the effects of this heavy increased tax burden for all tax payers.

We ask your support to retain these tax allowances rather than eliminate them.

Eileen Gearman

Sincerely,

CC: Edwin Meese, III

RE: Treasury's proposed "Tax Reform for Fairness, Simplicity and Economic Growth" to begin January 1, 1986

Dear President Reagan:

The Domestic Oil and Gas Exploration Industry in this country will be seriously impacted in present and future operations if the above Treasury's proposals remain unchallenged.

The Treasury is recommending the following major tax allowances be eliminated for all Royalty owners, Working Interest investors, Independent Oil Producers, and Major Oil Companies:

- 1. Depletion Allowances on existing and future production
- 2. Intangible and Tangible cost deductions
- 3. Investment Tax Credit on Tangible costs
- 4. Dry hole costs only expensed over several years if acreage not abandoned by producer.
- 5. No deduction of Secondary and Tertiary Recovery costs

The elimination of these necessary tax considerations would deal a devastating blow to all people in the oil and gas exploration and production business creating a heavy increased tax burden.

Also--if these Tax proposals become law, it will definitely contribute to the deficit increasing due to the necessity of this country's need for increased costly imported oil.

President Reagan, we need to ask you to <u>publicly reject</u> the Treasury's proposals as outlined above to avoid the catastrophic effect on the Domestic Oil and Gas Exploration Industry. Further, State Senators and key Congressmen also need to be aware of the effects of this heavy increased tax burden for all tax payers.

We ask your support to retain these tax allowances rather than eliminate them.

Den and Ruth Robeling
