ROAD TO GENEVA AND BEYOND

Themes and Perceptions for Public Presentation

Theme: BUILDING A SAFER WORLD

Basic Messages: (Bracketed portions to be used when proposals made.)

-- We want countries to stop trying to expand their influence through armed intervention and subversion.

[That is why we are proposing negotiated settlements, withdrawal of outside forces, and international efforts to build economies and meet human needs.]

-- We have the mandate and opportunity to reduce the danger of nuclear war by drastic cuts in nuclear arsenals.

[That is why we are proposing radical, verifiable and balanced reductions of offensive nuclear weapons and are pursuing research to identify defensive technologies - which threaten no one.]

-- We must defend human rights everywhere, since countries which respect human rights are unlikely to unleash war.

[That is why we insist that the Helsinki accords and other international commitments be observed.]

-- We must establish better communication between our societies, since misunderstandings make the world more dangerous.

[That is why we are proposing dramatic increases in people-to-people exchanges, programs to share information, and enhanced cooperation in meeting human needs.]

-- The meeting in Geneva marks a new phase in this process. Our efforts to reach these ambitious goals will continue.

## PERCEPTIONS OF THE GENEVA MEETING

### Working for a Safer Future

The President seeks to build the foundation for peaceful and constructive relations with the Soviet Union. This will require a long-term, sustained effort. It must be based on the principles of fairness, reciprocity and honest fulfillment of all agreements.

### Soviet Behavior: The Roots of Tension

The use or threat of force by the Soviet Union and its proxies is an underlying cause of Soviet-American and world tension. The President is determined to defend the United States and its Allies. The USSR must cease using arms and force to expand its influence if tensions are to diminish.

### Leading from Strength

The President's hand is strong: he has reversed the decline in American strength and has a robust economy, a united public and strong alliances behind him. He is able to defend us whatever the Soviets do. But he wants more: he wants to lower arms levels, reduce tensions and create a more cooperative relationship with the USSR.

### Promoting Democratic Ideals

The President will speak out for democracy, freedom, justice and decency everywhere since these values are the surest foundation of a just and peaceful world in the future. He does not attempt to impose our political or economic system on others, but will insist that the Soviet Union also refrain from attempts to dominate others.

### Probing Soviet Intentions

We can have a more cooperative relationship with the Soviet Union only if the Soviet leaders also want it. The Geneva meeting will determine whether there has been a change in Soviet policy or only in Soviet style.

### Realistic but Determined Effort

The President is preparing seriously for the meeting in Geneva. He has no illusions about the profound differences in our philosophies and societies but will go the extra mile for enduring peace and a safer world. He will bring creative and ambitious ideas to the meeting. His efforts will not end when the Geneva meeting is over. He is in this for the long haul.

WITHDRAWAL SHEET AT THE FRONT OF THIS FOLDER.

PRESIDENT'S UNGA ADDRESS, 1985  
Basic Outline

Introduction on UN

- On UN anniversary, should not only evaluate its record, but what we want to work for, and, how to make it happen.
- UN is a political institution, and politics requires compromise. But we should remember the true path to UN's original vision -- peace and human progress. We cannot attain either unless we recall their relationship to freedom and human rights. America's policies based on this relationship.

America's Record

- Recall Charter principle: to "save succeeding generations from the scourge of war."
- In the past 40 years, a new world war has been averted. The US takes pride in the efforts we've made along the way: from helping rebuild war-ravaged nations to maintaining a secure military balance with our NATO and other allies; protecting peace-loving friends in danger from Korea to Pakistan, El Salvador and Grenada; to taking risks for peace in the Middle East and through our proposals to reduce the weapons of war and the dangers of misunderstanding.

Looking Ahead to Geneva: A Fresh Start

- First meeting of US-Soviet leaders in over 6 years. Differences between us are deep and abiding, but this does not mean we cannot deal with these differences peacefully.
- In Geneva, we will look to the new Soviet leadership for a willingness to engage in real give-and-take -- a complete and candid discussion of where dangers exist and where peace is being disrupted.
- We will present a full explanation of our arms proposals, and how past disappointments can be avoided in the future. We do not seek treaties for treaties' sake. We seek to combine radical, equitable and verifiable reductions in offensive strategic weapons with progress on strategic defenses to make the entire world safer.
- Success in this and other efforts described above can contribute to building peace, to guaranteeing a safe path into the 21st century. But have to do more than that: try to lay the foundation for a truly enduring peace.

... And Obstacles

- Much stands in our way, but we shouldn't settle for second-best in seeking peace. Harry Truman said that ultimately, our greatest hopes for peace and human progress lie not only in measures of defense or in the control of weapons, but in the growth and expansion of freedom and self-government.
- He, like the UN's founders, saw the core of peace in mutual trust among nations, and self-determination -- in both national independence and democracy. To live up to this vision, need to change our thinking in four ways:
  - Peace based on partition is not true peace. Years after World War II, nothing justifies permanent division of European continent. [Foreshadow exchanges proposals]. This pattern must not spread to other continents through intervention and interference.
  - Peace based on repression is not true peace. To make peace secure, and to enjoy its blessings, individuals must be free to direct their own governments.
  - Peace based on quarantine is not true peace. World community can't avert its eyes from the tragic consequences of conflict, just because contained within one country.
  - Finally, peace based on mutual fear is not true peace. Sketch rationale for SDI; reiterate hope for a nuclear weapons-free future. Hope Soviets will see this serves their interests.
- Rather than walls of partition and mistrust, we need greater communication for an OPEN WORLD. In place of repression, policies that enhance reform. In place of quarantine, engagement. In place of fear and insecurity, increased safety.
- Always hard to find practical ways to bring these closer. Today want to present an American approach on one of the most important areas on the Geneva agenda.

Initiative on Regional Conflicts

- A plan to deal with conflicts taking a heavy human toll, which have drawn in outside powers and greatly concerned peaceloving people everywhere about the conduct of the Soviet Union. Builds on proposal for US-Soviet discussions made at 1984 UNGA.

- Among the most brutal wars being fought today: those in which popular resistance forces battle Communist regimes, in Afghanistan, Cambodia, Nicaragua, Ethiopia, Angola. In all these cases: people refusing to accept imposed regimes; conflicts spilling over borders, threatening neighboring states and more dangerous confrontation; external involvements prolonging the fighting.
- A three-part American proposal:
  - First, ceasefire and negotiations among the warring parties in countries I've mentioned.
  - Second, once these negotiations open, a separate set of Soviet-American talks on how to eliminate external military presence in the country and to cut off the external flow of arms into the area of conflict.
  - These talks would lay the basis for the third element of a long-term solution -- reintegration of these countries into the world economy. US would participate generously.
- To succeed, such a proposal has to address the underlying conflicts that have drawn others in, but also to find a formula for keeping them out in the future. Plan is not meant to replace but to complement existing efforts at mediation, peace-making.
- Ask careful thought before rejecting this proposal: to reject is to take responsibility for perpetuating violence. Benefits of proposal should be clear, for the US and USSR, but most of all for the peoples of these regions. Creates a basis for internal reconciliation, and for beginning economic growth.

#### Economic Growth and Human Rights

- Recall Charter principle: "promoting social progress and better standards of life in larger freedom." Scientific achievement, technological advance today promise revolutionary improvements in lives of ordinary people.
- Proud of American record of helping others, from Marshall Plan to Mexican and African relief. Cite 40-year foreign aid totals.
- But the real energy of economic growth comes from assuring individual freedom; it depends on rewarding individual initiative to the fullest. Nations cannot enjoy the blessings of peace and prosperity, without also protecting human rights.

- Those who doubt the link between peace, growth and freedom should compare the nations that have been denied them: e.g., Eastern Europe, Indochina, southern Africa, Nicaragua, Cuba, with those where freedom has been welcomed as a friend and staunch ally.
- Sakharov quote: international trust, mutual understanding, disarmament and security inconceivable without an open society.

Looking with hope and realism to a better future -- How do we get there?

- We're practical: look problems in the face, develop fair and balanced solutions. Understand what works, what doesn't.
- No country can ignore its responsibility to contribute. At present, we're pursuing improved relations with the Soviet Union. Given importance of these two powers, people everywhere would benefit from results.
- Consider what would be possible if Soviet side ready to work with us. Relief for the Soviet people of major burdens; benefits for all nations. Less likelihood of confrontations arising from regional conflicts. The confidence that can help us to lessen reliance on nuclear weapons, and in the future eliminate altogether. Confidence that facilitates unfettered economic cooperation.
- Emphasize: we don't exaggerate what greater Soviet-American agreement can accomplish. The real revolution of our time cannot be made by the great powers, but by free people who can show what peace really means.
- As for the UN's future, plainly it, too, is only a part of securing peace, because its members -- governments -- are themselves only a part of it. But won't begin to play the role it could unless we understand the true meaning, and real requirements, of its high goals.
