Mr. Michael K. Deaver, General Chairman  
The Committee for the  
50th American Presidential Inaugural  
Washington, D.C. 20599

Dear Mike,

I don't know whether to thank you first for the great honor of being asked to serve as an Honorary Chairperson of the 50th American Presidential Inaugural or for those absolutely marvelous, patriotic looking license plates!

To say I am honored to have been asked to serve our great President in yet another way is an extreme understatement. With this 50th Inaugural comes another four years of honest, sensitive, budget and people minded government that our nation desperately needs, and I am proud to be a part of it.

The license plates were put on my Rolls Royce today where they will be prominently displayed for all to see. I think they are wonderful, and I am pleased to have such a low number.

Thank you again, Mike, for all you have done for the Republican Party and especially for President Reagan personally in your years of service to him. I know the President will sorely miss your expertise, and exceptional devotion, but I am confident that your decision to leave was made with great care and much thought.

My wish for you is that all your future endeavors will be successful.

Keep in touch.

Best Wishes,

Mrs. George C. Brock

Congratulations on our historic victory. With the President's help (and some luck) we were successful in holding our Senate majority. I am grateful for your help. Thank you.

Now I must turn my attention to a matter of great concern among my colleagues.

During the 1980 Inaugural, Senators had extreme difficulty securing tickets for their major donors and political allies. Many have asked me what provision, if any, can be made to alleviate these problems in 1985. And, with a growing NRSC major donor base, the Committee is also concerned.

I would like to propose a new solution to help you and the NRSC have a successful and problem-free Inaugural. I propose that the NRSC be tasked with all arrangements, invitations and the like for one of the Inaugural sites. The NRSC would invite its own major donors as well as the guests of Senators. The NRSC would remit \$1,000,000 immediately to the Inaugural Committee, and, if ticket sales justified, additional amounts equal to 50% of the value of all tickets sold.

In return, the Inaugural Committee would arrange for the stop-by visit of the President, Vice President, and any entertainment that appeared at other Inaugural Ball sites and include the Ball site in all press releases, etc. Likewise, the Ball under our supervision would in no way be called anything except an Inaugural Ball.

The NRSC would bear the cost of printing and mailing all invitations, delivering tickets, ticket will call and decoration costs.

I think this is an innovative arrangement that would benefit both the Inaugural Committee and the NRSC. I look forward to discussing this new approach with you personally.

Dear Mike,

Congratulations on a magnificent victory. The President's performance was superb.

During the last days of the campaign I wrote you a letter which might have gone astray during the hectic times. In that note I indicated my availability to come East and assist with the inauguration for whatever time period.

Please let me know if I can be of assistance. It would be a pleasure to be involved.

Re: Presidential Inaugural Committee - 1985

Dear Fred:

Two steps need to be taken immediately and almost simultaneously:

1. Filing with the Recorder of Deeds the Articles of Incorporation of Presidential Inaugural Committee - 1985.
2. Official designation by written order of the President of the following to arrange and conduct the Inaugural ceremony and the functions and activities related thereto:
  - a. Presidential Inaugural Committee - 1985
  - b. Michael K. Deaver as Chairman

We have prepared and enclose a copy of Articles of Incorporation. These are based upon articles from past years, updated.

We have also prepared a document for your consideration and presentation to the President for signature.

If you approve and we can get the President's signature today on the appointment, we can also execute and file the Articles of Incorporation, with yourself, Pierre J. LaForce and myself as incorporators, today. The Articles designate Michael K. Deaver, Ronald H. Walker and John F.W. Rogers as Directors of the Corporation, as we discussed.

Fred Fielding, Esq.  
November 15, 1984

I am sending copies of this letter and the enclosures to Messrs. Deaver and Walker so you may coordinate with them as appropriate.

As soon as these steps are completed, we should have a first meeting of Directors to adopt Bylaws and authorize necessary action, such as bank accounts.

I will expect to discuss this with you later today.

Sincerely yours,

Robert W. Barker

# SENATOR WILLIAM PROXMIRE

WISCONSIN

FOR RELEASE AFTER 6:30 P.M. THURSDAY, NOVEMBER 15, 1984, FOR FRIDAY AMs

Senator William Proxmire (D-Wis.) in a statement from his Washington office Thursday said "It's inaugural time and once again the press and the American taxpayer are going to be taken for an expensive ride. Already statements are being made and reprinted by newspapers that 'the government didn't spend a dime on the last inaugural' -- setting the stage for the same declarations this year. The only trouble is such pious declarations are totally false."

Proxmire is a member of the Defense Subcommittee of the Committee on Appropriations and a senior member of the Joint Economic Committee.

"There are several organizations that participate in the inaugural arrangements", Proxmire said. "Foremost is the Presidential Inaugural Committee. This is a privately financed committee that is charged with total control over the inaugural. In 1981 this committee spent \$16.3 million on inaugural activities -- all privately financed. (It should be noted that there was a loss to the Treasury from the tax deductions claimed by individuals giving funds to the Presidential Inaugural Committee.)

"But that is only part of the total expenditures. The Presidential Inaugural Committee receives a huge subsidy from the Department of Defense -- almost \$2 million additional dollars of manpower and services in 1981.

"Specifically in 1981 DoD provided 1,533 military personnel for social aides, drivers, and ushers. They spent the equivalent of 105 man-years chauffeuring and escorting inaugural VIPs around Washington, D.C. The military drivers logged an incredible 250,000 miles ferrying members of the Presidential Inaugural Committee and other VIPs -- the same as driving from Washington, D. C. to the West Coast and back 47 times.

"The costs of the military manpower, using standard DoD salary estimating procedures, was \$1.2 million. In addition the Armed Forces spent at least \$600,000 in administrative costs and expenses by bringing in service personnel to act as chauffeurs from surrounding states.

"Some Presidential Inaugural Committee members had an Armed Forces chauffeur driving them to and from home from the third week of November until the end of January -- all at taxpayers expense. These are the same people who claimed that no tax funds were spent!

"Not only is the Presidential Inaugural Committee subsidized by the Department of Defense, the General Services Administration has an inaugural appropriation of \$1.5 million and the District of Columbia is given \$2.3 million for the ceremony -- both coming from tax funds.

(OVER)

"Thus every time the taxpayer hears the soon-to-be quoted phrase -- 'not a penny of tax funds will be spent on the inaugural' -- they should know it's only wishful thinking or outright avoidance of the facts.

"All Americans are proud of the inaugural ceremony. It is a grand event signifying the peaceful transfer or continuation of power in the world's greatest democracy.

"What I would like to see is the Presidential Inaugural Committee getting this Administration off on the right track by picking up all the bills -- for DoD, GSA and D.C. -- not just a few and then falsely claiming no tax funds were spent."

United States Senate  
COMMITTEE ON APPROPRIATIONS  
WASHINGTON, D.C. 20510

November 12, 1984

The Honorable Charles A. Bowsler  
Comptroller General of the United States  
General Accounting Office  
441 - G Street, N. W.  
Washington, D. C. 20548

Dear Mr. Bowsler:

On April 18, 1983, you indicated in a letter opinion to me that "we must conclude that much of the support provided by DoD for 1981 inaugural activities was without proper legal authority." In addition you noted that "Lack of a statutory base for this support has resulted in practices questionable on policy as well as legal grounds."

You recommended that Congress undertake a review of the Presidential Inaugural Ceremonies Act and establish a clear basis in policy and law for continuing participation by Federal Agencies. This, however, has not occurred and we are again facing the prospect that thousands of military personnel will be used for the 1985 inaugural ceremonies without proper authorization in law.

You may remember that during the 1981 inaugural, 1,533 military personnel were used as personal and social aides, drivers, and ushers. They spent the equivalent of 105 man-years chauffeuring and escorting inaugural VIPs around Washington, D. C. The military drivers logged an incredible 250,000 miles ferrying members of the Presidential Inaugural Committee and other VIPs--the equivalent of driving from Washington, D. C. to the West Coast and back 47 times.

The cost of the military manpower, using standard DoD salary estimating procedures, was \$1.2 million. In addition the Armed Forces spent at least \$600,000 in administrative costs and expenses by bringing in service personnel to act as chauffeurs from surrounding states.

Some Presidential Inaugural Committee members had an Armed Forces chauffeur driving them to and from home from the third week of November until the end of January--all at taxpayer expense.

(MORE)

Certain military personnel were selected for social escort duty for visiting VIPs. These personnel were required to have the rank of major or above—although occasional exceptions were made for a "really outstanding Captain" according to the Armed Forces Inaugural Committee.

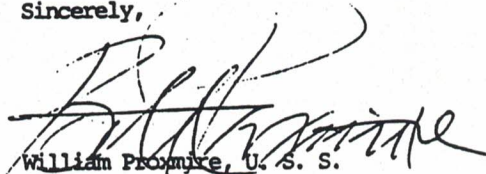

In your exhaustive examination of the legal authorization for using military personnel for the inaugural, you concluded that the only statutory provision that specifically authorizes DoD to provide support for inaugural activities is 10 U.S.C. 2543, the codification of section 6 of the Presidential Inaugural Ceremonies Act of August 6, 1956, ch 974. This law only refers to assistance of a medical or safety nature, as you pointed out, and "does not authorize DoD to provide the number of personnel and the wide-ranging inaugural support referred to in DoD's report to us."

All other legal justifications cited by DoD were rejected in your lengthy opinion.

Under these circumstances, I hereby ask you to insist that no federal assistance be provided to the 1985 inaugural unless specifically authorized by law. In addition I ask that you examine whether or not the Anti-Deficiency Act or any other Act has or would be violated by the expenditure of federal funds for a purpose that is not authorized in law. Furthermore would you please indicate which officials should be held accountable under the provisions of the Anti-Deficiency Act.

Given the timing of the preparations for the inaugural, I would hope that you could examine this quickly and issue guidelines and restrictions to the relevant participating bodies before significant expenditures of public funds are undertaken.

Sincerely,

William Proxmire, U. S. S.
