THE WHITE HOUSE

WASHINGTON

January 3, 1984

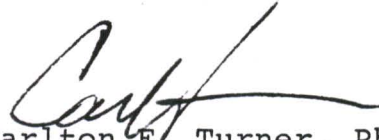

Dear Carol:

Thanks for the note regarding the Second National Conference on Hospital-Medical Public Policy Issues.

I will be travelling a great deal during January and will not be able to attend all sessions, but I hope to attend some. Please let me know if it would be possible to drop in.

Again, thank you and I hope your holidays were happy. Best wishes,

Sincerely,

Carlton E. Turner, Ph.D.

International Symposium on  
Single Photon Ultra Short-Lived Radionuclides

May 9 – 10, 1983  
Pan American Health Organization  
525 23rd Street, N.W.  
Washington, D.C.

The objective of this Symposium is to define the current role and state-of-the-art of development and clinical applications of generator produced single photon ultra short-lived radionuclides (USRN).

During recent years there has been a significant increase in interest in this area. Advantages of USRN include the following:

- Significantly lower radiation dose to patients
- Improved studies with high photon flux
- Possibility of repeat studies or rapid sequential studies
- Possibility of multiple radionuclide examinations within a short time

This Symposium will emphasize the phases of generator production, quality controls, dosimetry, instrumentations and clinical applications of USRN. Principal focus will be on the Ir-191m, Au-195m and Kr-81m radionuclide generators. The sessions are designed to encourage active participation and discussion.

**Preliminary Program**

Scientific presentations pertinent to objectives of program of 12 minutes length are being solicited for the Monday afternoon session. Submit abstracts of only one page length with supporting data to the ACNP with a registration form. **Deadline for abstracts is March 15, 1983.**

Manuscripts of at least 3 pages are due upon arrival at the Symposium for publication in the Proceedings to be published by the Department of Energy and the National Center for Devices and Radiological Health.

**Monday, May 9, 1983**

9:00 - 9:20 a.m.	Welcome and Introduction
9:20 - 12:00 noon	Clinical Applications of Kr-81m, Au-195m and Ir-191m

AMERICAN COLLEGE OF NUCLEAR PHYSICIANS  
**9TH ANNUAL MEETING**  
& NUCLEAR MEDICINE  
EDUCATIONAL SEMINAR

MARCH 9-13 1983  
CERROMAR BEACH HOTEL  
DORADO, PUERTO RICO

WELCOME to the ninth annual meeting of the American College of Nuclear Physicians. This program has an unusual variety of the current, the new and the future. John McAfee, M.D. and Henry Wagner, M.D. bring us their thoughts on what is important in nuclear medicine. Dr. McAfee's symposium on the kidney is timely and brings together an unusual view of the future in this area. Dr. Wagner's symposium covers a broad range, (an image of the future) and views many of the subjects which appear on the nuclear medicine horizon. One of these new areas is covered in some detail in the nuclear magnetic resonance symposium. Lastly, some new and interesting economic aspects of nuclear medicine will be covered on Sunday.

This is an exciting program, which when coupled with the locale, will make for a most enjoyable meeting.

Howard J. Dworkin, M.D.  
Program Chairman

## General Information

The American College of Nuclear Physicians has requested the services of EPIC, INC. a well known conference coordination and travel firm located at 1030 15th Street, N.W., Suite 356, Washington, D.C. 20005 (telephone: (202) 789-0355), to assist our members in their travel arrangements to Puerto Rico for the 1983 Annual Meeting. Our reason for doing this is to offer an additional service to ACNP members by making available the lowest excursion air fare which is available only when purchasing a total travel program as outlined in this brochure. If you do not desire to travel on the reduced air fare, simply indicate on the reservation form your desired class of travel and EPIC will confirm your air reservations accordingly. EPIC has reserved air seats on the most advantageous flights to and from San Juan so that our members will have the opportunity to travel on the most convenient flights, most economically. We urge you to work with EPIC for all your travel needs to Puerto Rico.

### ACNP Travel Program March 9 - 13, 1983

The following travel program booked through EPIC, INC. will qualify any person for the **Reduced Excursion Air Fare**:

- Four nights' hotel accommodations at the Cerromar Beach Hotel based on Modified American Plan (breakfast and dinner). \$170.00 per couple, per night; \$145.00 for single per night, not including tax & tips. Requests for arrival prior to March 9 and departure after March 13 should be made immediately.
- Round trip transportation between the San Juan Airport and Cerromar Beach Hotel by Dorado Transport. \$18.00 per person.

REGISTRANTS NOT WISHING TO USE THE EXCURSION FARE NEED NOT TAKE THE TRAVEL PROGRAM SHOWN. If you wish to "go it alone" your hotel rate is \$170.00 twin and \$145.00 single MAP (breakfast and dinner) plus applicable taxes and gratuities. You will be required to prepay the hotel a one night's deposit through EPIC in order to guarantee your room. This amount will be reflected in your confirmation after you have filled out the reservation form attached. Balance of your room charges and incidentals can be charged to the following credit cards: American Express, VISA, Master Charge, and Diner's Card. You may also pay charges by personal check but this must be cleared with the Credit Manager two to three days prior to checkout.

## Deposits, Payment and Cancellation

A deposit of \$200.00 per room is required for confirmation of reservations at the Cerromar Beach Hotel. If you are taking the Travel Program you will be invoiced for the balance due at approximately 60 days prior to date of travel. If you are merely reserving your hotel accommodations, your initial deposit is sufficient and no further invoices will be forwarded. All payments for those electing the Travel Program will be invoiced 60 days prior to travel and payments are due at EPIC no later than 45 days prior to date of travel. There will be a \$10.00 per person administrative charge for cancellations received at any time; for cancellations received after January 9, 1983, a \$10.00 per person cancellation charge will be applied in addition to any cancellation fees imposed by the hotel. (A cancellation fee is standard for the Caribbean Islands and Resort Hotels).

Any reservations initiated within 30 days from date of travel to the Cerromar Beach Hotel will be subject to a \$10.00 service fee to cover the extra expense of arranging reservations by telex and telephone rather than in the normal manner.

ALL CHANGES AND CANCELLATIONS MUST BE MADE IN WRITING TO EPIC NOT BY TELEPHONE

## Special Arrangements

Since there are so many possibilities (such as St. Thomas, St. Croix, or St. Maarten), we are not offering any organized trip, but EPIC will be happy to make individual arrangements for those wishing to extend their stay in the Caribbean. Just drop EPIC a note indicating your interest and they will send you details on whatever island(s) you wish to visit, including the appropriate additional air fare quotation.

## Local Information

**Cerromar Beach Hotel:** There are three dining rooms at the Cerromar Beach Hotel. The Main Dining Room and the Garden Terrace require no reservations; at the Club Cerromar, however, reservations well in advance are recommended. If you wish to see their delightful show in the evening, make reservations before 8:00 PM. The Cerromar Beach and Dorado Beach Hotels have reciprocal dining, but again it is necessary to have reservations in advance. Check-out time at the Cerromar Beach is 12 Noon.

The restaurants do request gentlemen to wear jackets and ties for dinner.

## Climate and Clothing

Puerto Rico is warm and sunny, with year-round average temperatures of 75-80 degrees. Plan on lightweight casual clothes for daytime wear and light suits and dresses for the evenings.

## Gambling

Gambling is legal in Puerto Rico, and casinos are found in all the major hotels.

## Spouses' Program

**Thursday:** A tour of the Barcardi Rum Factory has been arranged with a light lunch. Busses will pick up the participants around 10:00 A.M. and return to the Cerromar Beach Hotel in plenty of time to get ready for the Welcome Reception in the evening in the Garden Terrace.

**Friday:** No special activities are planned, a time for tennis, golf, bicycling, or sunning on the beach or by the pool. Those who wish can join their spouses for the Awards Luncheon at 11:45 AM. That evening is free for dinner; you can enjoy the restaurants and show at the hotel or make arrangements to go into San Juan.

**Saturday:** A tour of Old San Juan has been arranged where there will be the opportunity for shopping and sightseeing in this historic town, and a stop for lunch. Busses will pick you up at 10:00 A.M. and return to the Cerromar around 5:30 P.M. The evening's entertainment includes a dinner and show.

## Responsibility Clause

The American College of Nuclear Physicians, and EPIC TRAVEL, as Agent, holds itself free of any responsibility for loss or damage to baggage or personal effects, or for any loss, accident, illness, or for any acts of God, or due to fault or negligence of any company or person entrusted with any of the above services or from any cause whatsoever. The right is reserved to make any alterations or omissions in the program or schedule, when in the opinion of the Agent, such alteration is necessary for the comfort and well-being of the registrant. The airlines concerned are not held responsible for any act, omission, or event during the time passengers are not on board their aircraft or conveyance. The Passage Contract in use by the airlines concerned when issued shall constitute the sole contract between the airlines and passengers.

Director  
Drug Abuse Policy Office  
The White House  
Washington, D.C.

Dear Carl:

Thank you for your letter of December 13, 1982 and my apologies for being tardy in responding. No excuses, just the explanation of holidays and the beginning of programs for the new year seem to have caused me to be a bit backed up in my work load.

I have enclosed a few brochures to illustrate the activities of the American College of Nuclear Physicians (ACNP) Public Education Program.

As I mentioned to you this program has met with outstanding success and we continue to work with the medical and lay community to discuss our concerns about so much misinformation.

I would be more than pleased to meet with you to discuss ways in which the ACNP could be of assistance to you and your program. Please feel free to contact me at your convenience. Perhaps we can arrange to meet for lunch.

Sincerely,

Ms. Carol A. Lively,  
Executive Director
