POLITICAL BACKGROUND

Since the age of 15 I have been exposed to the international business activities of my father and from the age of 7 I have been involved in the political activities of my uncle, a former President of the United States.

Because of my uncle's political career, I have been able to work in his campaigns for the Senate, Vice President, Governor and President.

During this period I have been fortunate to meet world leaders, attend and represent my family at political and social functions, have had access to political and business leaders, and have given speeches in place of my uncle.

My political involvement has also included running local campaigns and working as a political appointee in the City of Irvine, California and for the County of Orange, California. I have been active in California state political organizations as well as local political organizations.

Most recently I have been a candidate for the Republican nomination for Congress in the 43rd District of Orange County and San Diego County, California. During this period I gave over 67 speeches and spoke to over 6,000 people. My activities included fundraising, evaluation of legislation and proposal of new legislation, speaking with Congressmen, Senators and Governors, as well as working with all Republican candidates for statewide office in California in 1982. Also included were press conferences, establishing contacts with the media - television, radio and newspapers, and the day-to-day organizational activities of the campaign.

I would be pleased to discuss with you in detail my political activities, my experience, the individuals I have met and worked with and answer any questions you might have.
