MEETING WITH REPRESENTATIVE CARL PURSELL
(REPUBLICAN - MICHIGAN)

DATE: Tuesday, August 17, 1982
LOCATION: The Oval Office
TIME: 11:00 A.M. (15 minutes)
FROM: Kenneth M. Duberstein *Ker D.*

I. PURPOSE

To solicit Carl's solid support for the reconciliation tax bill.

II. BACKGROUND

Carl Pursell -- a third term Republican from Michigan's Second District (southeast part of state, including Ann Arbor) -- serves on the House Appropriations Committee. He has been a leader among House "Gypsy Moths" and participated actively in negotiations which produced the final budget compromise this year.

Carl is reported to be "undecided" on the reconciliation tax bill. He has not met with the President on the tax issue.

SUGGESTED TALKING POINTS

- We've accomplished a lot by working together over the last year and a half. You have helped enact historic changes -- a basic reversal of the tax and spend policies of years past.
- You know how difficult it was to put together the coalition last year for our economic program. We had similar problems passing a Budget Resolution this year. We were able to save our basic tax cut and the indexing provisions -- but at a price. The price was the tax package now reported out of conference.
- You know how important I believe it is to pass this conference report. Passing this conference report will help bring down interest rates and keep them down. These lower interest rates are the key to stimulating business recovery.
- Unfortunately there has been a lot of misinformation about this tax bill. New personal taxes are only 17 percent of the \$99 billion figure. About 80 percent of the money raised by the bill will come from plugging special interest loopholes and from collecting money that is already owed and the effect of the withholding provisions has been greatly exaggerated.

- As partners in an economic recovery program we are faced with tough choices. In my mind a vote against the conference report is a vote for higher deficits and higher interest rates and would create a breakdown in the budget process that is so crucial to imposing fiscal discipline on the Democrats in the House.
- One other thing, if this were a parliamentary form of government, a vote against this conference report would be considered a vote of "no confidence" in me and my leadership. I need your help and support. I'm asking you to vote for the tax bill conference report.

- We've accomplished a lot by working together over the last year and a half. You have helped enact historic changes -- a basic reversal of the tax and spend policies of years past.

- You know how difficult it was to put together the coalition last year for our economic program. We had similar problems passing a Budget Resolution this year. We were able to save our basic tax cut and the indexing provisions -- but at a price. The price was the tax package now reported out of conference.

- You know how important I believe it is to pass this conference report. Passing this conference report will help bring down interest rates and keep them down. These lower interest rates are the key to stimulating business recovery.

- Unfortunately there has been a lot of misinformation about this tax bill. New personal taxes are only 17 percent of the \$99 billion figure. About 80 percent of the money raised by the bill will come from plugging special interest loopholes and from collecting money that is already owed and the effect of the withholding provisions has been greatly exaggerated.

-- As partners in an economic recovery program we are faced with tough choices. In my mind a vote against the conference report is a vote for higher deficits and higher interest rates and would create a breakdown in the budget process that is so crucial to imposing fiscal discipline on the Democrats in the House.

-- One other thing, if this were a parliamentary form of government, a vote against this conference report would be considered a vote of "no confidence" in me and my leadership. I need your help and support. I'm asking you to vote for the tax bill conference report.
