**Washington, D.C. 20070**

Dear Family Member:

I am writing to you today to ask you to take immediate action on an issue that is crucial to the survival of your family and our Judeo-Christian ethic of morality.

It is vital that you sign the enclosed national petition to stop the liberals in Congress from passing the "Gay Bill of Rights".

On the day before Congress votes on the "Gay Bill of Rights" I hope to deliver 250,000 petitions to the United States Congress.

And these hard-core liberals -- who now put the "rights" of homosexuals before your own God-given right to live as you choose -- will not ignore 250,000 petitions.

So please, for your family, President Reagan, and America, will you mail me your national petition against the "Gay Bill of Rights"? Thank you.

Now, just let me explain to you what House Resolution 427 (Gay Bill of Rights) is and how it will drastically change your life. . . and the life of every member of your family.

~~Ever since the mid-1960's homosexual political pressure has been growing on our elected officials.~~

Backed by the American Civil Liberties Union and well entrenched liberal bureaucrats in Washington, homosexual men and lesbian women have won victory after victory over you and your family.

Brace yourself, for what I am about to tell you is absolutely shocking.

Already at least \$640,000 of your hard-earned tax money has gone to gay community services "for education about gay lifestyles and gay peoples' problems".

Already \$34,000 of your tax dollars has gone to the Gay Alliance to provide speakers so school children can "learn" about homosexuality.

And the National Gay Task Force has operated with funds provided by the Federal Government.

The Federal Government has even paid the salaries of homosexual men and lesbian women who write, print and distribute a gay newspaper.

But this outright attack on your family and your tax dollars was not enough for the homosexuals and their allies in Congress.

Now they want the "Gay Bill of Rights". I hope you are sitting down for the "Gay Bill of Rights" has just made null and void your Bill of Rights.

Did you know that if House Resolution 427 passes you can be investigated by the Federal Government if you refuse to do business with a homosexual?

In short the gay community, with all its money and all its liberal influence, wants to change your lifestyle.

They want to have the power to force you to live near a homosexual.

They want to have the power to make you do your daily business with a homosexual.

And if you don't want to work with a homosexual, or you don't want to live with a homosexual, and if you don't want to do business with a homosexual . . . then, they say you are a criminal.

And the Federal Government will be forced to take the side of the homosexual against you.

The American Civil Liberties Union -- with almost unlimited funds -- will prepare legal action against you. The United States Justice Department, with your tax dollars, will be forced to bring you to court.

And President Reagan will be powerless to stop this outrage.

For the "Gay Bill of Rights" will be the law of the land.

That's why the "Gay Bill of Rights" must be defeated now!

Because if you refuse to work with, live near, or do business with a homosexual, you will be dragged into court. For you will be the lawbreaker.

And it will be you who will either pay a fine or go to jail.

You and I have only one hope. One chance.

The "Gay Bill of Rights" must be defeated.

And it can only be defeated if you are willing to take a stand against it.

My friend, for too long, you and I have allowed our voice to go unheard in Washington.

Your opinion is just as important as any homosexual's.

But unfortunately, your voice is not being heard.

And now the American Civil Liberties Union is suing the Boy Scouts in California to reinstate a homosexual boy scout.

My friend, I am outraged at what the militant homosexuals want to do to your freedom of choice.

And all they have to do to succeed, is for you to do nothing.

The American people, when given the opportunity, have consistently voted against "Gay Initiatives" on their local ballots.

That's why the militant homosexuals have zeroed in on Washington, D.C.

And these militant homosexuals and lesbians have won victory after victory here in Washington.

Your tax dollars - \$41,000 to be exact - was given to a radical feminist organization to produce "The Leaping Lesbian Follies" where women performed in the nude.

National Public Radio has received \$14,695 for the National Lesbian and Gay Mens Radio Project.

The University of Southern California received a \$65,285 Federal grant to "study" successful homosexual men.

These radical homosexual and lesbian groups - organized at the national level - have posed a direct challenge to you and your family.

And their challenge must be met, with your help.

Now is the time to say "no" to the militant homosexuals who want to dictate their "alternative" values to you.

---

Now is the time to say "no" to the "Gay Bill of Rights".

And now is the time to say "yes" to your family. Your sense of morality. Your freedom of choice.

Now I must ask you a very personal question: do you want the "Gay Bill of Rights" defeated? I hope you just said "yes" for the future of your family is now on the line as never before.

You can help President Reagan and your family by taking two crucial actions.

First, mail me your national petition to Congress opposing the "Gay Bill of Rights".

Second, send your maximum contribution to the American Family Association.

The American Family Association is authorizing an emergency budget of \$19,275.00 for the next ten days to pay for petitions, post cards, postage and telephones.

The situation is critical for you and President Reagan. For once the "Gay Bill of Rights" is the law of the land, you will no longer be free: you will be dictated to.

It is crucial that I have 250,000 petitions to present to Congress and Tip O'Neil and it is crucial that your Congressman know you're outraged.

The American Family Association has made its commitment to you.

Can the Association now count on you for a contribution of \$1,000, \$500, \$250, \$100, \$50 or \$25?

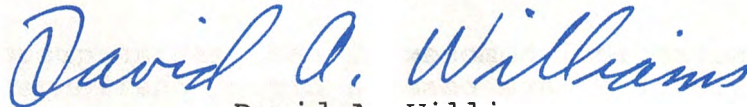

Or if you can only contribute \$20, \$15 or \$10 that will be appreciated as well.

Every dollar is important in this crucial campaign.

Remember, if this Bill passes, you and your family may suffer forever.

So please mail your contribution immediately. Time is short, and the situation is critical.

Sincerely,

David A. Williams  
Executive Director

P.S. It is crucial that the "Gay Bill of Rights" be defeated. So please mail me your national petition and your contribution. Thank you for standing with the American Family Association.

# REPLY TO DAVID A. WILLIAMS, EXECUTIVE DIRECTOR AMERICAN FAMILY ASSOCIATION

Dear David:

- I am proud to stand with you and the American Family Association: Radical homosexuals and lesbians must not be allowed to impose the "Gay Bill of Rights" on my family. *The liberals in Congress have no right to make me a criminal if I refuse to associate with homosexual men and lesbian women.*

To help you and the American Family Association, I am signing my national petition to Congress and enclosing my emergency contribution of:

\$1,000                       \$500                       \$250                       \$100  
 \$50                               \$25                               \$15                               \$10

AMERICAN FAMILY ASSOCIATION

WASHINGTON D.C. 20002  
(202) 393-6656

STATEMENT OF THE AMERICAN FAMILY ASSOCIATION BY  
DAVID A. WILLIAMS; VICE PRESIDENT-EXECUTIVE DIRECTOR  
FOR PRESENTATION FOR THE RECORD OF THE HEARING HELD BY  
THE SUBCOMMITTEE ON CRIME OF THE HOUSE JUDICIARY  
COMMITTEE, REPRESENTATIVE WILLIAM HUGHES. D-2<sup>nd</sup> DIST.-  
N.J. PRESIDING: ROOM 2226 RAYBURN BUILDING, WASHINGTON, D.C.  
MAY 19, 1983 9:30 A.M.

It is most unfortunate that a hearing on child pornography legislation is being held---unfortunate in the sense that the use of children in pornography has expanded so much in recent years that legislation(federal, state, and local) has to be considered. The fact that "kiddie-porn" has become a growth industry in America is to the shame of our citizenry, law enforcement officials, and legislators alike. As the sexual exploitation of children sweeps across the length and breadth of this country it falls to the United States Congress to fashion a solution to the problem within the realm of it's jurisdiction. However, if the net result of these hearings is the passage of a law without an understanding of the forces and intellectual currents that have produced this horrid practice, then we are wasting our time. We believe that the sexual exploitation of children is the logical result of an attitude that regards certain forms of human life to be expendable. The words of philosopher-theologian Francis A. Schaeffer and United States Surgeon General C. Everett Koop, M.D. ring with crystal clarity on this point. "We believe that the increased use of children in sex films has been responsible for much of the sexual abuse of children. When absolute sexual standards are replaced by relativistic ones, and this is coupled with the generally low view of people that modern humanists have been teaching, society is not left with many barriers against the sexual abuse of children. After you remove the psychological and moral barriers imposed by a high and sacred view of human life, child

abuse of all kinds becomes very easy, given the stresses of child rearing, especially child rearing in the antifamily climate of today. The Supreme Court ruling that legalized abortion and the arbitrariness of that decision regarding who is or is not a "person" have broken down barriers. There has been a dramatic rise of crimes against children since abortion-on-demand became legal in the United States. We are convinced that this increase is caused in part by the liberalization of abortion laws and the resultant drastic lowering of the value placed on human life in general and on children's lives in particular." (Francis A. Scheffer and C. Everett Koop, M.D., Whatever Happened to the Human Race? [Fleming H. Revell Company. Old Tapper New Jersey. 1979], p. 31.)

In a sidenote, mothers who have had several abortions are more likely than others to beat their children, according to a study conducted by Dr. Burton G. Schoenfeld, a child psychiatrist of Prince Georges County General Hospital in Maryland.

We do not wish to belabor the point regarding the de-humanization of children, but before we move on to the subject of legislative remedies regarding child pornography, the attitudes of a number of distinguished scientists on the subject of the protection of children should not be ignored.

In May, 1973, James D. Watson, the Nobel Prize laureate who discovered the double helix of DNA, granted an interview to Prism magazine, then publication of the American Medical Association. Time later reported the interview to the general public, quoting Watson as having said, "If a child were not declared alive until three days after birth, then all parents could be allowed the choice only a few are given under the present system. The doctor could allow the child to die if the parents so choose and save a lot of misery and suffering. I believe this view is the only rational, compassionate attitude to have."

In January 1978, Francis Crick, also a Nobel laureate, was quoted in the Pacific News Service as saying, "...no newborn

infant should be declared human until it has passed certain tests regarding it's genetic endowment and that if it fails ~~these~~ tests it forfeits the right to live."

In Ideals of Life, Millard S. Everett, who was professor of philosophy and humananties at Oklahoma A&M, writes, "My personal feeling---and I don't ask anyone to agree with me--- is that eventually, when public opinion is prepared for it, no child should be admitted into the society of the living who would be certain to suffer any social handicap---for example, any physical or mental defect that could prevent marriage or would make others tolerate his company only from the sense of mercey." He adds, "This would imply not only eugenic sterilization but also euthanasia due to accidents of birth which cannot be foreseen." (The quotes from the three aforementioned scholars are taken from Schaeffer and Koop, Ibid, p.73.)

If one believes that Ideas have Consequences (and surely the effect of Mein Kampf bears this out) then it is extremely important that legislative steps be taken now to halt and wipe out child pornography, which is a logical manifestation of the philosophy expressed by Messrs. Watson, Crick, and Everett. Unless a tough, no-nonsense law is passed, the sexual abuse of children will continue to grow unabated. We hate to imagine where that will ultimately lead to.

During the course of your hearings you will be receiving testimony from the Justice Department, Treasury, the Post Office, various law enforcement personnel, and representatives from the medical and health communities. They will be offering, from their perspectives, information that will be helpful in your deliberations. We of the American Family Association focus our concern on the child participant in the pornography. This is not to say that there are not others effected such as the reader of the pornography whose sexual values and actions become warped and twisted by it. Then there are those innocents who become the prey of the consumer of the pornography. Finally our society

becomes a victim by the eroding away of it's sexual standards by the pornography that it tolerates.

Yet as we have stated earlier our first concern is with the child forced to perform sexual acts. Any legislation that is passed with regards to child pornography must as its first consideration be the welfare of the child. This is not just our opinion but that of the U.S. Supreme Court's. We of course refer to it's decision on July 2, 1982 in the case of New York v. Ferber in which it upheld a New York State law prohibiting the depiction of sex acts involving children. The Court found that "it is evident beyond the need for elaboration that a state's interest in 'safeguarding' the physical and psychological well being of a minor is 'compelling'. Globe Newspapers v. Superior Court, U.S. (1982)." p.9.

Furthermore, "the prevention of sexual exploitation and abuse of children constitutes a government objective of surpassing importance." "The legislative judgement as well as the judgement found in the relevant literature, is that the use of children as subjects of pornographic materials is harmful to the physiological, emotional and mental health of the child." p.10.

With these guidelines, we have studied very carefully the bills presented before the House and the Senate regarding this subject matter. Since we agree wholeheartedly with the Supreme Court's decision on New York v. Ferber, we would approve of legislation that attempts to incorporate that decision into federal law. On the Senate side, the bill that attempts this is S.1240, the "Child Protection Act of 1983", introduced by Senator Charles Grassley-R-Iowa. On the House side we recommend H.R. 2106, the "Child Protection Act of 1983", introduced by Representative Charles Pashayan R-17 Cal.

Both bills would bring Federal statutes into conformity with the U.S. Supreme Court decision, New York v. Ferber. There is another bill, S.57 introduced by Senator Arlen Specter R-Pa.,

which although it attempts to tighten the Federal Code on child pornography, leaves exceptions that we find unacceptable. We refer to p.2.[2251.] Definitions for chapter under "(c) sado-masochistic abuse (for the purpose of sexual stimulation)", and p. 3, "(d) masturbation, except as included as an integral portion of a work possessing serious scientific or educational value; or", and p.3, "(6)'lewd exhibition' means that to the average person the depiction is patently offensive and lascivious without serious scientific educational or social value."

The sexual exploitation of a child damages him or her whether or not it appears in a sleazy magazine or film, or in a book on sex education. We refer again to the opinion of the U.S. Supreme Court in New York v. Ferber. "...Whether a work, taken as a whole, appeals to the purient interest of the average person bears no connection to the issue of whether a child has been physically or psychologically harmed in the production of the work." p.13. "In addition, a work which, taken on the whole, contains serious literary, artistic, political, or scientific value may nevertheless embody the hardest core of child pornography. 'It is irrelevant to the child [who has been abused] whether or not the material...has literary, artistic, political, or social value.' Meomorandum of Assemblyman Lasher in Support of 263.15 We therefore cannot conclude that the Miller standard is a satisfactory solution to the child pornography problem." pp.13-14.

For these reasons we believe that S. 57 or any other variant of it, either on the House or Senate side, cannot adequately and comprehensively affect a solution to the problem of the sexual exploitation of children.

Because H.R. 2106 and S.1240 incorporate the United States Supreme Court decision, New York v. Ferber into Federal statutes, we urge their passage.

We conclude by offering the information and expertise that we have developed on the child pornography problem, to the

relevant House and Senate Committees that have jurisdiction on this subject.

Thank you very much.

President Ronald Reagan  
The White House  
Washington, DC 20500

Dear Mr. President:

One of the basic tenets of your Administration's domestic policy is to seek a limit on the unnecessary intrusion of government into the marketplace. On another level, the administration is also committed to adopt policies which will support the continuation of the American family as a valued social entity. As an Administration, we have taken significant strides on the first initiative. Executive Order 12291 has caused the Executive Branch agencies to seek to reduce regulatory burdens upon industry. Vice President Bush's Task Force on Regulatory Relief has also acted to add emphasis to this effort. However, we have not marshalled the same energies to actively promote American family life.

I believe there is an opportunity now to begin the task of rethinking many of our current legislative and regulatory policies in terms of how they affect the American family. As Executive Order 12291 has caused a retrenchment of government from the private sector, I believe similar review of all laws and regulations which affect American family life should be undertaken. This regulatory review activity would be undertaken with a view toward reducing individual reliance upon government for the provision of basic needs and more reliance upon family and private sector social institutions. Additionally, government policies which negatively affect strong family, or even extended family relationships should be identified and studied to determine possible policy alternatives.

Mr. President, you are in the position to bring about such an examination. You have the authority to write an Executive Order, like Executive Order 12291, requiring a regulatory view of government policies which adversely affect family life.

On behalf of the National Pro-Family Coalition, and our member organizations throughout the nation, I request that you do so.

Sincerely yours,

Connaught Marshner  
Chairman
