ABOUT THE SPONSORS

THE NATIONAL STRATEGY INFORMATION CENTER, INC. of New York City is a non-partisan institution organized in 1962 to conduct educational programs in international security affairs. The organization holds the premise that an informed public opinion is vital to the protection of the nation's interests and to assist other free nations which aspire to independence and selffulfillment. The Center has organized briefings and assisted in presenting educational seminars for many colleges, universities, business, professional and labor groups.

The Center espouses no political causes. Its Directors and Officers represent a wide spectrum of responsible political opinion from liberal to conservative. What unites them, however, is the conviction that neither isolationism nor pacifism provides realistic solutions to the challenge of 20th century totalitarianism.

THE RESERVE OFFICERS ASSOCIATION, with headquarters in Washington, D.C., is a national organization with a membership of over 128,000 officers from all branches of the armed services. The objective of the Association is to support a military policy for the United States that will provide adequate national security and to promote the development and execution thereof. Membership represents many civilian facets of professional and business vocations from around the nation and the Reserve Officer organization represents a critical line of military leadership supporting the active duty forces. It is structured on the basis of regional state organization and represents grass roots and national thinking.

FREEDOMS FOUNDATION AT VALLEY FORGE is a non-profit, non-political, and non-sectarian organization founded in 1949. Its purpose is to carry out national programs of information and education emphasizing the principles underlying the unique freedoms enjoyed by United States citizens under their constitutional form of government. These programs are based on the concept that an understanding of the United States political, social, and economic system, as well as the responsibilities of good citizenship, are essential for the protection, preservation, and diffusion of freedom.

Through an annual national awards program, many awards have been presented since 1949 to individuals and groups who have made a significant contribution to a better understanding of the American system through the things they have written, said, or done.

The Foundation is not endowed and receives no financial support from any level of government. Freedoms Foundation is governed by a 24-member Board of Directors composed of nationally known Americans from industry, education, and other fields.

Freedoms Foundation offers a variety of graduate programs, special conferences, and youth workshops intended for various types of professionals and young adults from throughout the United States and abroad, dealing with citizenship education, American history, the status of free institutions throughout the world, our constitutional system of government, and many current events topics. Special programs are often given in cooperation with various sponsoring organizations and groups.

Over 6,000 men and women across the country work together to promote the programs and philosophy of Freedoms Foundation. These members of the forty-three chartered Volunteer Chapters, located in twenty-one states from Hawaii to Florida, seek out material for a National Awards program, honor local Awards recipients, and send qualified students and professionals to Valley Forge as participants in the educational programs. The Volunteer Chapters also support the work of the Foundation through public relations activities, informing the media and general public about national Foundation programs as well as local chapter events.

This program on U.S. national security is offered in cooperation with the Freedoms Foundation Kern County Chapter. The chapter's membership numbers approximately 100 men and women, active both professionally and as volunteers concerned with national and community programs and activities.

THE MODERATOR and coordinator for today's program is **Captain Ned K. Kulp**, who represents the National Strategy Information Center. He is President of Ned Kulp Company and Associates. His wide spectrum of activities include business interests, national security affairs, and educational endeavors. He is a graduate of Trinity College, Hartford, Conn., is a commissioned officer in the Coast Guard Reserve and has studied further in conjunction with the Naval War College, Army War College, National Defense University, and Freedoms Foundation.
