### **Finding Aid Type**

White House Staff and Office File Collections

### **Subtitle/Office**

Office of Policy Development

### **Disclaimer**

Folders noted as "Open" may still contain closed material due to Freedom of Information Act restrictions. Most frequent withdrawn material is national security classified material, personal privacy, protection of the President, etc. Folders noted as closed are subject to Freedom of Information Act (FOIA) requests under the provisions of the Presidential Records Act (PRA).

If you are interested in submitting a FOIA request for access to any of the unavailable records or have any questions about these collections or series, please contact our archival staff.

### **Copyright**

Some of the archival materials in this collection may be subject to copyright or other intellectual property restrictions. Users of these materials are advised to determine the copyright status of any document from which they wish to publish.

### **Record Type**

Textual

## **Scope and Content Note**

### **SCOPE NOTE**

Robert Carleson was a previous appointee in the California gubernatorial administration of President Reagan. His portfolio included health and welfare reform efforts.

This collection is arranged into three series and multiple subseries within Series I & II.

This collection was arranged according to the box inventories and White House staff notes regarding the filing locations of this material. This has resulted in three sets of material with some of the same subjects in each series.

Much of this material was unfolded and the inventories were unreliable, so a considerable amount of arrangement work was necessary. The Library felt the additional re-arrangement to put like materials together would come close to destroying any originality to this material, and we chose to maintain this original arrangement of the material by White House filing locations.
